

BEN CARTER, MSc

Since 2004, Ben Carter has had a first hand role in the growth and success of Neil O. Anderson & Associates, Inc. As the Project Manager of the Reno office, Ben leads a team of 6 employees who perform testing and engineering services, technical inspections and administration. It is Ben's priority to fully understand his clients' needs so that he is able to determine a practical scope of work and provide a latitude of engineering solutions that are within the client's budget.

With a Master of Science Degree in Geotechnical Engineering and as a Registered Professional Engineer, Ben has the vast experience and understanding in soil mechanics, foundations, material testing, soil dynamics, structures, and general engineering.

We encourage you to trust your Engineering needs to the capable hands of Ben Carter.
