

# NOA's Doing It Again

In addition to AMRL, CCRL and Army Corp of Engineers,  
We're adding another specialty to our resume

## Caltrans Testing Laboratory

Neil O. Anderson & Associates, Inc. is certified for the following tests:

Specific Gravity  
Sand Equivalent  
Durability Index  
Stabilometer Value  
Cleanness of Coarse Aggregate  
Moisture Content by Oven Drying  
Gradings & Specific Gravities Calcs  
Asphalt Content using Ignition Ovens  
Soil & Aggregate Sample Preparation  
Sieve Analysis—Fine/Course Aggregates  
Moisture Content using Microwave Oven  
Sample Hwy Products for Road Structural Sections  
Bulk Specific Gravity & Density of Bituminous Mixtures  
Relative compaction—Untreated/Treated Soils & Aggregates  
Maximum Specific Gravity & Density of Bituminous Paving Mixtures  
Nuclear Gage Relative Compaction of Untreated/Treated Soils/Aggregates  
Determining in Place Density & Relative Compaction of Asphalt Concrete Pavement  
Asphalt Concrete Plant Inspection      Portland Cement Concrete Plant Inspection  
QC/QA Testing, Inspection and Quality Control Manual Preparation
