

GARRET HUBBART, PE, GE

Since 1992, Garret Hubbard has had a first hand role in the growth and success of Neil O. Anderson & Associates, Inc. As the General manager of the Lodi and Ceres offices, Garret leads a team of over 25 employees who perform testing and engineering services, technical inspections and administration. Garret is also a partner and the Chief Financial Officer for the company. It is Garret's priority to fully understand his clients' needs so that he is able to determine a practical scope of work and provide a latitude of engineering solutions that are within the client's budget.

With a Master of Science Degree in Geotechnical Engineering and as a Registered Professional Engineer and Geotechnical Engineer, Garret has vast experience and understanding in soil mechanics, foundations, ground modification, hydrogeology, material testing, soil dynamics and earthquake engineering.

In addition to his role at NOA, Garret is proud to have served as past President for the Central Valley Branch of the American Society of Civil Engineers where he created dialogue between ASCE branch members and county supervisors and local congressman.

We encourage you to trust your geotechnical needs to the capable hands of Garret Hubbard.
