

## JASON ZWINGGI, PE, SE

Jason Zwinggi is the Structural Engineering Division Manager in the Sacramento office of Neil O. Anderson & Associates, Inc. In this capacity he has taken a principal role in the development and management of NOA's structural department as well as acting as Project Manager/Engineer on many of the structural projects. He is the main contact for this new department, which can accommodate all of your structural needs ranging from residential additions to large commercial buildings.

Jason's expertise encompasses timber structural design, structural steel design, low rise office and custom residential. He also holds additional experience in areas of education buildings (DSA projects) and concrete tilt-up structures. Jason's diverse experience comes from years of working for large structural engineering firms as well as managing his own firm. Drawing from his past experiences has made Jason into a well rounded professional with knowledge in all aspects of engineering and business.

If you feel Jason could field any inquires you might have please feel free to contact him.
