

## PATRICK C. DELL, PE, GE

Patrick Dell is the Senior Project Manager at Neil O. Anderson & Associates, Inc. As a Registered Geotechnical and Professional Engineer, Pat's responsibilities include managing all phases of geotechnical investigations from residential, municipal, commercial to industrial projects. Pat has been involved in numerous levee projects within the San Joaquin Delta area. These projects have involved geotechnical analysis with FEMA, COE, and DWR related projects. He is also involved with business development and supervises and assists with materials testing and construction observation services.

Pat has over 25 years experience in the Sacramento/ San Joaquin Valley area. As one of our lead Geotechnical Engineers and a Principal in the company, Pat strives to develop strong client relations and deliver exceptional service along with a superior work product.

Feel free to contact Pat regarding any questions you might have.
